ANNEXURE 1

Principal terms of the Capital Notes

Type of Security

The Capital Notes being offered are unsecured, subordinated fixed interest debt obligations of New Zealand Finance Holdings Limited.

Fixed Interest Rate

The Capital Notes will pay a fixed rate of interest of 9.75% per annum, subject to adjustment in limited circumstances.

Quarterly Payments

Interest will be paid quarterly in arrears, providing a fixed quarterly interest payment to investors, other than the first interest payment which will be calculated from allotment of each Capital Note until 15 December 2006. The first interest payment will be paid to the original subscribers of the Capital Notes (regardless of any subsequent transfers before the first interest payment date).

Term

The Capital Notes will mature on 15 March 2011. Prior to the Maturity Date, the Company may elect to offer Noteholders the option to renew the Capital Notes on new terms and conditions. Alternatively, the Company may elect to redeem the Capital Notes by issuing new Ordinary Shares in the Company to the Noteholders at a discount to the then current market price, or by redeeming the Capital Notes for cash.

The balance of the terms of the Capital Notes are comprised within the Investment Statement and Prospectus dated 18 September 2006 issued by NZF.
